Vanguard Healthcare Solutions is a leading provider of high-quality, flexible healthcare infrastructure solutions. With a sole focus on healthcare, our knowledgeable, skilled, and capable team brings vast experience and a deep understanding of customer needs. We pride ourselves on being the highest quality provider in the industry.

Vanguard offers innovative, scalable solutions to help your Trust to deliver a minimum 5% percentage point waiting list improvement by March 2026 and onwards.

Hospitals are currently facing significant challenges in meeting the 5% target set in the Reforming Elective Care Plan for this financial year. The increasing demand for surgical services and the need for enhanced efficiency have put immense pressure on healthcare systems. Vanguard Healthcare Solutions addresses these challenges by providing rapid deployment solutions that help tackle waiting lists and improve patient care.

Vanguard Healthcare Solutions is proud to offer a comprehensive solution for the provision of a day case unit. These units can be delivered, set up, deployed, commissioned, and operational within three weeks. Available for an initial three-month period **with a range of flexible and affordable procurement options** this offering allows healthcare providers to make a significant impact on their elective waiting lists.

Imagine the transformative impact of reducing patient waiting times with these versatile, high-capacity hubs. Over just a three-month day-case contract, our **Day-Case Hub**—featuring an Operating Theatre and a 6-bay Recovery Ward—can deliver up to **975 ophthalmic procedures***, including **130 major surgeries*** and **845 minor treatments***, ensuring exceptional care and swift turnaround.

Meanwhile, our **Overnight Hub**, with an Operating Theatre and a 10-bay Recovery Ward,

is optimised for orthopaedic specialties, handling **260 major procedures*** and **130 minor procedures***, totalling **390 life-changing treatments** in the same period.

For endoscopic needs, our **Endoscopy Hub**, equipped with state-of-the-art decontamination facilities and a recovery ward, can deliver an impressive **1,300 procedures***, providing crucial diagnostic and treatment services efficiently and effectively.

By investing in these innovative facilities, you unlock the potential to revolutionise patient care, maximise throughput, and achieve measurable results—all while tackling the pressing challenge of waiting lists. Together, we can reshape the healthcare landscape with precision, speed, and impact.

Imagine what you could achieve.

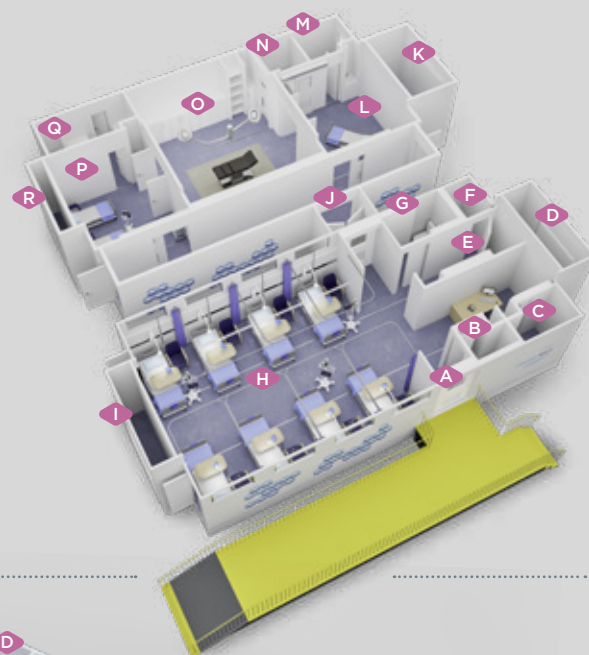

*Data based on a live contract, case mix can vary significantly and will impact opportunities and numbers.

Mobile Theatres

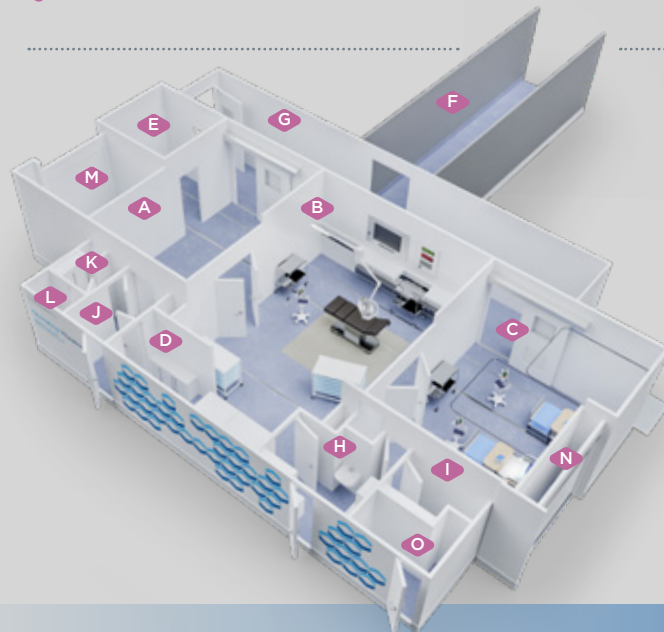

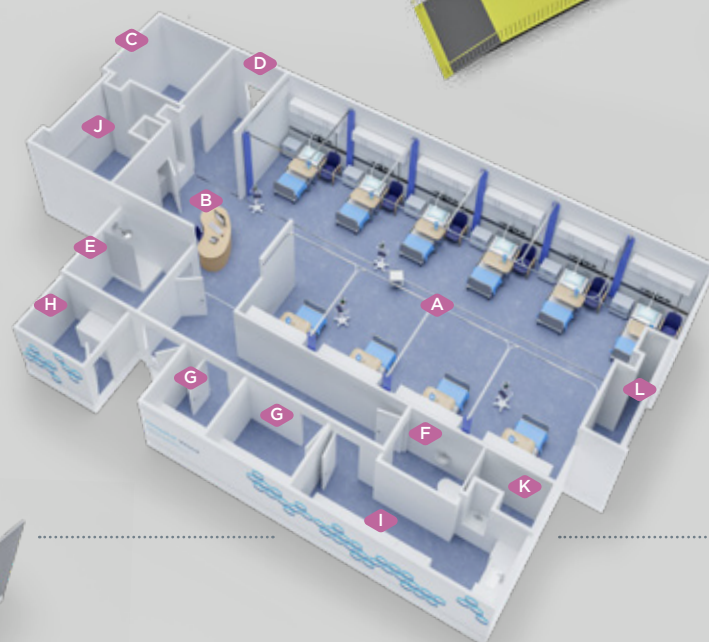

Day Case Unit

Case studies:

A New Day Case Unit to Increase Surgical Capacity:

Vanguard provided a new day case unit to Milton
Keynes University Hospital, significantly increasing
surgical capacity and reducing waiting lists.

Fairfield General Hospital, Bury

Vanguard provided additional capacity for endoscopy
procedures to help patients across Greater Manchester
access essential care and reduce waiting lists'

Implementation Process

Our facilities are designed to be plug-and-play, requiring minimal setup. The requirements include:

Space and Dimensions: Adequate site dimensions are necessary to accommodate the mobile unit and any additional facilities, such as walkways or modular connections.*

Utilities: The site must have access to essential utilities, including electrical supply, water, medical gases, and drainage systems.

Telecommunications: Reliable communication infrastructure is required to ensure smooth operations.

Accessibility: The location should allow for easy access for patients, staff, and equipment. This might include pathways or integral walkways connecting to existing hospital buildings.

Custom Configurations: Depending on the surgical needs, the theatre can include features like anaesthetic rooms, recovery areas, and advanced imaging equipment.*

This offering is available through our “Facility Flex” program: A smart approach to mitigating IFRS16 and CDEL challenges.

*All setups are subject to a site survey.

Facility Flex, a revolutionary pay-as-you-go revenue model designed to provide healthcare capacity swiftly and efficiently. This model allows healthcare providers to access a wide range of demountable and modular infrastructure without the need for capital expenditure, ensuring no impact on CDEL caps and is IFRS16 exempt.

FEATURE	BENEFIT
Pay-As-You-Go Model	No capital expenditure required, preserving financial resources.
Immediate Availability	Rapid deployment to meet urgent healthcare needs.
Flexible Infrastructure	Tailored solutions for various clinical settings.
Comprehensive Support	Access to skilled clinical staff and state-of-the-art equipment.
No Impact on CEDL Caps	Financial flexibility without affecting capital expenditure limits.

Facility Flex by Vanguard Healthcare Solutions offers a seamless, efficient, and flexible approach to healthcare infrastructure, ensuring you can treat more patients swiftly and effectively. Contact us today to learn more about how Facility Flex can benefit your organisation
